

ANDREI UPALAUNEU

frontend developer

Meticulous front end developer with artistic background and technical mindset. Got near 1 year of front end experience and passion for responsive layouts and 10+ years of architectural practice.

I set up automation in project activities, developed a marketing strategy, as well as branding and graphic design.

But I've always had a passion for programming.

skills

Git	Next
HTML	Figma
CSS / Sass	Photoshop
JavaScript	MUI
